Saint Luke's South Surgery Center Welcomes New Administrator

Experienced administrator takes the lead at established surgical center

OVERLAND PARK, Kan./April. 08, 2019 – Saint Luke's South Surgery Center is pleased to welcome new facility administrator, Chad Furgason, MHA who brings to his role an extensive healthcare history involving ambulatory surgery administration. Furgason joined the surgery center officially on March 25th, and is poised to continue its reputation for award-winning service and outcomes.

"I'm excited about the opportunity with Saint Luke's South Surgery Center," said Furgason. "Saint Luke's as a whole is an incredible entity, and this surgery center in particular is a wonderfully efficient and effective part of their network. I feel well equipped to lead here and look forward to guiding the center toward continued success."

Furgason has spent more than two decades in healthcare administration, predominately leading ambulatory surgery centers and surgical hospitals.

Saint Luke's South Surgery Center opened in 2007 and performs a wide variety of surgical specialties, including gynecology, gastroenterology, ENT (ear, nose and throat), orthopedics, pain management, plastic surgery, podiatry and general surgery. The facility, which maintains a 96 percent positive patient satisfaction rate, features three fully equipped operating rooms and private patient recovery bays.

"Our goal here is to further improve the surgery center's processes and programs, ensuring that it remains a facility known for best-in-class quality, positive patient experiences and the best possible outcomes," said Furgason.

ABOUT SAINT LUKE'S SOUTH SURGERY CENTER

Saint Luke's South Surgery Center was established in 2007 by a dedicated group of area physicians, seeking a better way to serve their patients. The facility's mission is to provide specialized surgical procedures in a high-quality, patient-focused environment that is both comforting and accommodating. Procedures at Saint Luke's South Surgery Center benefit from advanced medical technology and highly qualified nursing and technical staff, plus most procedures are performed by each patient's own physician, further enhancing the sense of comfort and assurance. Saint Luke's South Surgery Center is fully licensed by the state of Kansas and is accredited by Medicare (CMS).
